# THE SYSTEM OF THE FUTURE

## LISTA OFFERS IDEAS AND FLEXIBILITY

There is no perfect, ready-made system for plant equipment storage and transport that meets all individual requirements. Each company has its own specialities and style of working and therefore special needs. Close

teamwork between yourselves and our Lista planning staff provides the best possible solutions for the transportation, storage, preparation and handling of your tools and workpieces.

NCS S 9000-N

# THE SYSTEM OF THE FUTURE

The high standard of flexibility of the adaptable Lista products is the answer to all your logistic problems. The potential working space around your machines can be put to use rationally, taking into account your

individual equipment storage, transporting, preparation and handling requirements. The extended product range shown in this brochure shows you how we achieve the best possible solutions. We are focusing

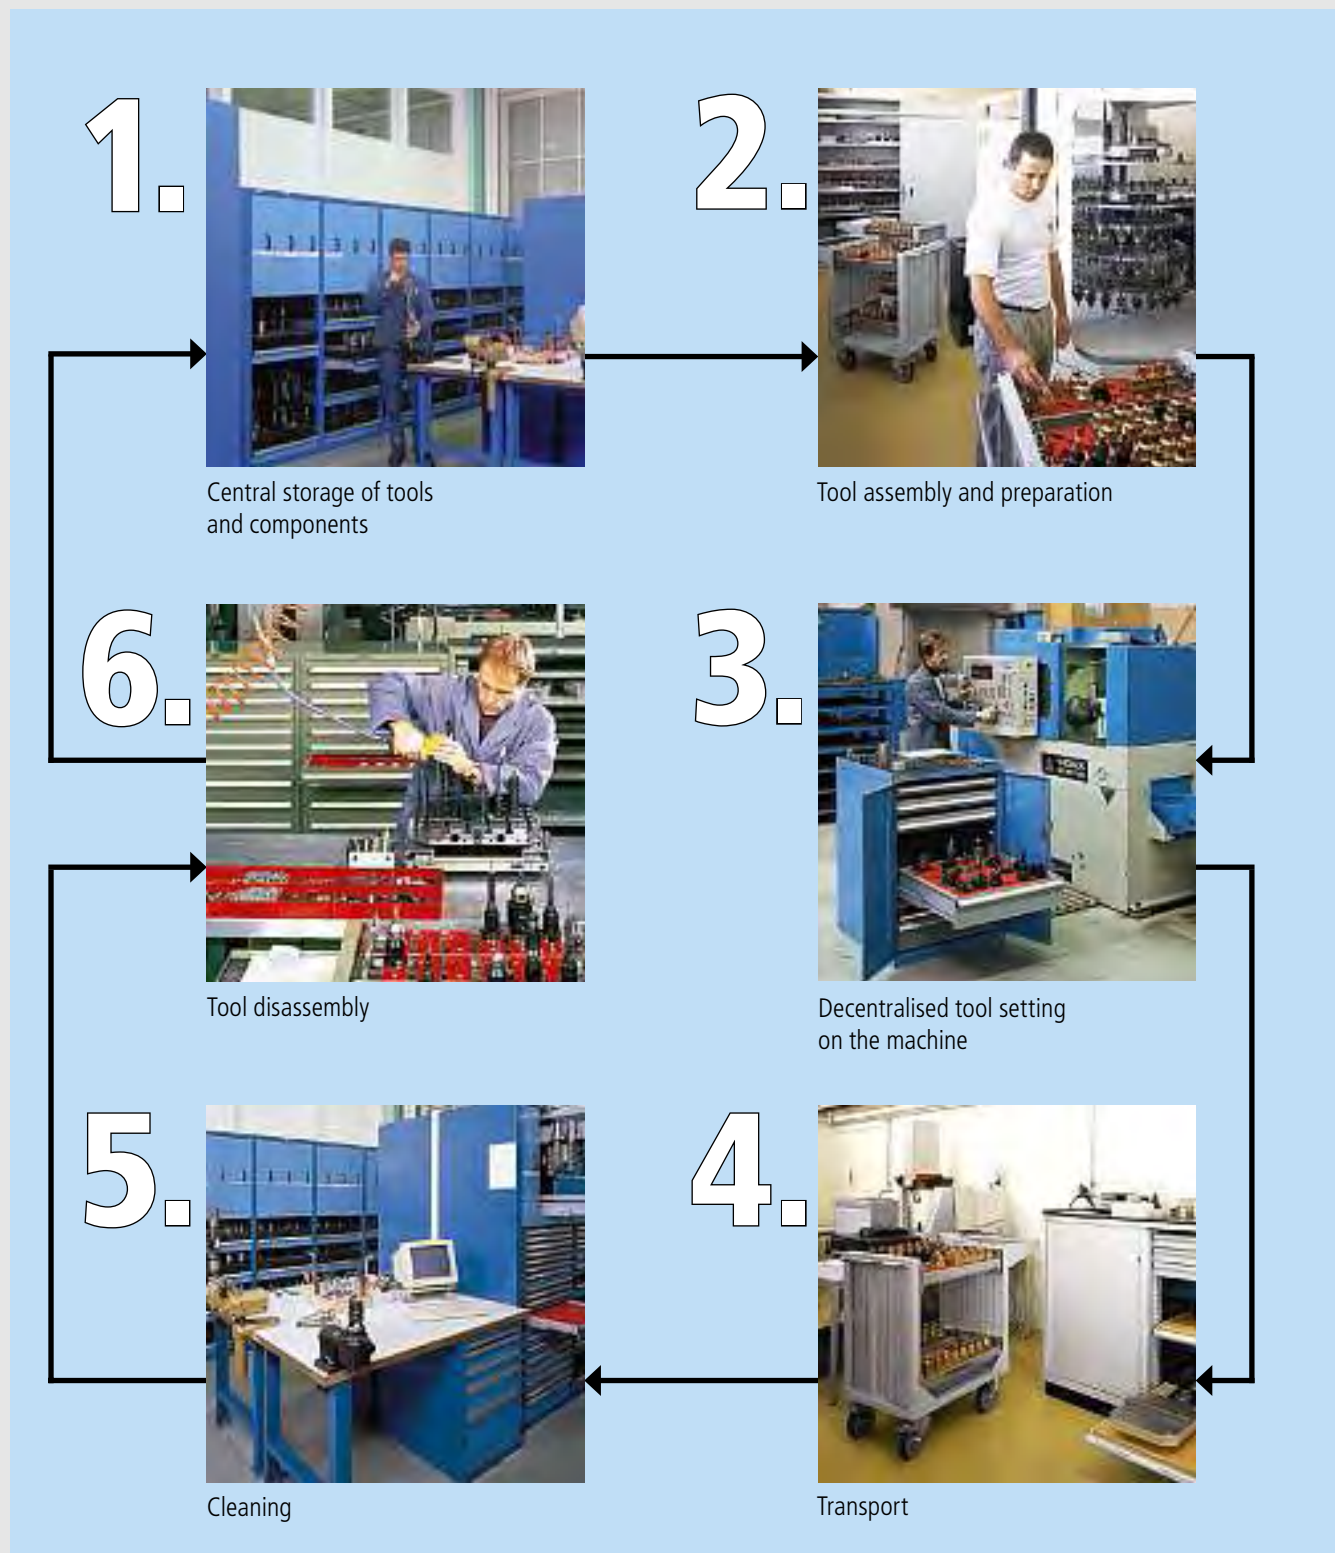

on the future - Lista equipment will still be up-to-date in years to come.

# WORKSHOP MATERIAL ORGANIZATION FOR PRESET TOOLS

The upwardly compatible Lista products offer the following benefits in workshop material logistics:

- Well organized, protective storage
- Simple transport of all tools and workshop material
- Speedy use, no machine downtime
- Provision close to machines for «island» production

# NC TRANSPORT UNITS

## DESCRIPTION OF VARIANTS

Transport units guarantee the safe transportation of tools. The all-welded construction is from quality sheet steel; the side panels are reinforced with steel profiles and welded to the steel bottom. Side panels with vertical

slotted guides for the boltless insertion of frame supports for the tool cradles and the insert frames, or adjustable shelves. Trolley with two fixed and two swivel castors with solid tyres, include braking mechanism.

Type B220

Type B240

1 Pair of frame supports

5 Adjustable shelf

### Benefits

2 Tool cradle

6 Cantilever shelf

- tools are undamaged in transit

3 Insert frame

7 Storage box

- highly flexible tool preparation

4 Tool holder

8 Safety bar pair
